Cross Flow Air Curtains

The **GREENBREEZE GB-G3** series air curtain is engineered to provide an invisible environmental separation barrier for your entrance. Combining a modern aesthetic with advanced internal components, including a large 11 cm diameter air wheel, the GB-G3 ensures powerful, smooth, and consistent airflow. It effectively keeps conditioned air inside while blocking out drafts, dust, and insects, making it ideal for commercial entrances, shops, and office buildings.

Key Features:

- Elegant & Durable Build:** Featuring a fashionable "quadrate hole punching" design, the front panel is not only aesthetically pleasing but also stronger and more durable. The sleek white finish complements any modern interior decor.
- Optimized Aerodynamics (11cm Air Wheel):** Our improved air duct design incorporates a large 11 cm diameter impeller wheel. This larger wheel allows for powerful, smooth, and even airflow, creating a highly effective air seal. This advanced design also allows for an effective mounting height approximately 0.5 m higher than standard competitor models.
- High-Efficiency, Low-Noise Motor:** Equipped with a powerful, self-manufactured high-efficiency motor, the GB-G3 operates reliably with reduced noise levels, ensuring a comfortable environment for customers and staff.
- Flexible Control Options:** Enjoy convenient operation with multi-control functionality. The unit comes standard with both a remote controller and manual keys on the body. Choose between standard two-speed operation or optional three-speed settings to suit various environmental needs.

Technical Data:

Voltage/Frequency: 220-240V/50Hz, 110V/60Hz, 110V/50Hz, 220V/60Hz

Model	Diameter of Impeller (mm)	Input Power (W)		Air Velocity (m/s)		Air Volume (m ³ /h)/(CFM)		Noise (dB)		Net Weight (Kg)	Gross Weight (Kg)	Unit Size (mm)	Mounting Height (mm)
		High	Low	High	Low	High	Low	High	Low
