GB-T1

Centrifugal Flow Air Curtains

The **GB-TI** features a fashionable appearance adopting a hexagonal hole punching pattern, providing both strong rigidity and a contemporary style. This unit is designed to serialize seamlessly with H3 and H5 models for a cohesive look across different entryways.

Key Features:

- **Stunning "Luxury Design" Aesthetics:** The GB-TI features a fashionable appearance adopting a hexagonal hole punching pattern, providing both strong rigidity and a contemporary style. This unit is designed to serialize seamlessly with H3 and H5 models for a cohesive look across different entryways.
- **Unique Customizable Appearance:** Match your interior decor with our unique segmented splice panel design. The front panel splices with upper and lower plates, allowing for multi-color matching options, including white + black, all black, or all white combinations.
- **High-Efficiency, Low-Noise Motor:** At the heart of the GB-TI is a powerful, self-made motor designed for high efficiency. It delivers reliable performance with significantly lower operational noise.
- **Flexible Control Options:** Choose the control method that suits your facility. The unit features a new generation remote control alongside manual key control design for convenience. It comes standard with two speeds, with an optional three-speed configuration available to suit various environments.
- **Smart Energy Saving (Optional):** Optimize efficiency with the optional intelligent magnetic door switch. This allows for humanized, automatic control of door opening and closing, greatly reducing indoor air outflow and maximizing energy savings.

Key Features:

Voltage/Frequency: 220-240V/50Hz

Model	Input Power (W)		Air Velocity (m/s)		Air Volume (m ³ /h)/(CFM)		Noise (dB)	Net Weight (Kg)	Gross Weight (Kg)	Unit Size (mm)	Mounting Height (mm)
	High	Low	High	Low	High	Low					
GB-TI-CF-900	223	162	16	12.5	1090	880	≤45	16.2	18	900×225×227	3-3.5
